ABOUT ME:

- With over 7 years of experience as a UI Developer, I specialize in making websites look great using CSS frameworks like Tailwind CSS and Custom CSS. I'm also skilled in advanced Frontend Frameworks like React.js and Next.js.
- Developed 50+ reusable UI components for 8 different projects, significantly speeding up development while enhancing quality.

KEY HIGHLIGHTS:

- Developed UI's by creating reusable react components using Next.js and Tailwind CSS.
- Developed responsive, high-performance UIs, accelerating project delivery times by 30%.
- Collaborated directly with the founder to deeply understand the core ideas and problems being addressed, ensuring the development focus aligns with the company's vision and user needs.
- Collaborated closely with marketing team to integrate user feedback into UI enhancements, resulting in a 25% increase in user retention.
- Led research initiatives to deeply understand user needs and competitor offerings, ensuring our UIs were both innovative and competitive.
- Managed and maintained project repositories on GitHub, ensuring seamless collaboration across frontend and backend development teams.
- Regularly updated and shared progress in team meetings, fostering a culture of transparency and continuous improvement.
- Used productive tools like Slack, Notion, Trello, Canva to be productive and updated.
